

Judea Pearl

Current Funding:

- Principal Investigator: *Probabilistic Networks for Automated Reasoning*, funded by the National Science Foundation, \$480,070, November 1, 2005 to October 31, 2008, 1 PI-month/per year, 2 GS-month/per year. The current NSF grant, due to expire October 2008, has enabled the Principal Investigator and his students to establish the mathematical basis for counterfactual reasoning which will be used to guide the research described in this proposal.

Pending Funding:

- Co-Principal Investigator: *Efficient and Robust Abductive Reasoning with Uncertainty*, pending approval by the Office of Naval Research. Subcontract award would be \$425,856, May 1, 2008 to April 30, 2011, 1 PI-month/per year, 1 GS-month/per year.
